

To all your wonderful members,

May 13, 2024

The sun is shining in Borrego Springs, and it is a good day to just enjoy the weather. I go to the mailbox and a good day turns into a fabulous, wonderful, sensational day because in the mailbox there is an envelope and inside the envelope is a check for \$6,500.00 which takes my breath away and I realize it is from the most caring people in the world.

I now will have the chance to tell you how much we greatly appreciate that donation, I share the news with my staff, and they are all excited as is my board of directors. Your group has always been there for us and no matter how many times I say thank you, I never feel like it is enough.

The Children's Center and your golf group have been together for about 25 years, and I still get extremely emotional when I receive your donation, it truly means so much to me because the relationship we have with your group is a special one.

The Children's Center is now in its second year with the Borrego Springs Youth and Seniors Center so with their help we continue to grow strong and of course with your donation we can grow even stronger.

I would also like to send a special thank you for the wonderful backpacks that we received; the children loved them. They are perfect, we even put a coloring book and some crayons in each one. To make this story even more perfect we have a child that sleeps with that backpack at nap time.

As I conclude this letter, I again want to say thank you to all of you for thinking about my children and caring for them as much as I do. I look forward to seeing you all next year. I hope that everyone has a wonderful year and I wish you all the best of health.

Love you all dearly,

Teresa West – Center Director

Borrego Springs Children's Center
